Evaluation and Services Kindergarten- 21 yrs. old

Division of Special Education M-DCPS

Provides services for children 5 to 21 yrs. old
with qualifying disabilities

**Services include evaluations for children
with suspected disabilities**

Evaluations are requested at the child's
corresponding home school

All students that qualify for services have an
(IEP)

The Process Simplified

Child is referred for an evaluation

Child is evaluated within 60 days of parent consent

Eligible students receive services as specified in IEP

Adapted from "The Basic Special Education Process under IDEA 2004"- NICHCY website

What the School Does Not Do...

**MDCPS does not diagnose!
Rather...**

Students are identified to be in a category- or eligibility criteria- for placement purposes

Medical professionals can provide a diagnoses

Important Details Parents Should Know...

Concerned about your child?
Begin by speaking to his/her teacher

Find out who in the school is in charge of
Special Education- this varies!

Request for evaluation should be **in writing**

Important Details Parents Should Know...

Create a file for the child's records

Ask for all professionals to explain evaluation results

Parents actively participate in writing the IEP, & are their *child's most important advocate!*

It's a good idea for parents to bring someone to the IEP meeting that may be of support to them
