# INCLUSION READINESS TOOL (IRT)

The Advocacy Network on Disabilities' All Children Together (ACT) project is The Children's Trust's Resource Network for the Special Needs of Children with Disabilities and their families. Its role is to work with The Children's Trust and the organizations it funds to increase our community's capacity to provide quality, inclusive programs to children with disabilities.

## WHAT IS THE INCLUSION READINESS TOOL?

The INCLUSION READINESS TOOL (IRT) is a self-assessment to help you determine your organization's current readiness to provide quality services to children with disabilities, and to serve as a guide for "next steps". It can be completed internally by administrative and direct care staff, as well as with the assistance of an Advocacy Network on Disabilities/ ACT Inclusion Specialist. Goals are not intended to be met immediately; but rather, accomplished over time as part of a multi-year capacity building process.

## WHAT ARE THE PATHWAYS TO INCLUSION?

The 9 evidenced-informed competencies that make up the pathways include: Orient/Train Staff; Inclusive Policies and Procedures; Safety; Alliances and Partnerships; Materials, Supplies and Equipment; Family Support; Physical Accessibility; Marketing Inclusion; and Individualized Inclusion Plans.

## SINCE THE INCEPTION OF THE ALL CHILDREN TOGETHER (ACT) RESOURCE NETWORK:

- Thousands of individuals have successfully completed hundreds of trainings on dozens of topics.
- More than 100 agencies have become Individual Program Inclusion Plan (IPIP) partners – which essentially entails working with The Advocacy Network on Disabilities staff to develop and implement a plan that better equips the organization to provide quality services to ALL children.
- More children with disabilities are participating in a greater number of programs funded by The Children's Trust, and are achieving increasingly improved outcomes.
- The Children's Trust's Core Contract includes the expectation that providers comply with federal law under the Americans with Disabilities Act, including implementing reasonable accommodations to include children with disabilities and their families whenever possible.

We believe The Children's Trust as a funder, you as a provider, we as a Resource Network, and all of us as a community, have made significant progress on the Pathway to Inclusion. You may be surprised to see how many of the core program competencies your organization has already achieved.
